

Road Safety - High Visibility Enforcement Interventions
 This course provides a comprehensive overview of road safety interventions, focusing on high visibility enforcement. It covers the legal framework, operational aspects, and the role of various stakeholders in ensuring road safety. The course is designed for law enforcement officers and other professionals involved in road traffic management.

Type: Course
Location: Web-based
Duration: 4 Weeks
Programme Area: Decentralize Cooperation Programme
Website: <https://unitar.org/sustainable-development-goals/people/our-portfolio/road-safe...>
Price: \$0.00
Event Focal Point Email: roadsafety@unitar.org
Partnership: Diageo

BACKGROUND

Road safety is a global challenge, with road traffic accidents being a leading cause of death and disability worldwide. The United Nations Sustainable Development Goals (SDGs) emphasize the need to reduce road deaths and injuries. High visibility enforcement interventions are a key strategy to improve road safety, as they increase the perceived risk of being caught and deterred from committing traffic offenses. This course provides a comprehensive overview of road safety interventions, focusing on high visibility enforcement. It covers the legal framework, operational aspects, and the role of various stakeholders in ensuring road safety. The course is designed for law enforcement officers and other professionals involved in road traffic management.

Approximately 5.29 million road traffic injuries occur globally each year, with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 5 and 29 years. Nearly 3,700 people die on the world's roads every day.

The adoption of policy and legislation on risk factors associated to traffic crashes—such as speeding, drink-driving, distracted driving, the use of helmets, seatbelts and child restraints, is essential to improve road safety.

At the same time, strengthening the individual and institutional capacities of law enforcement officers and relevant stakeholders to implement innovative interventions that reduce the number of road traffic injuries and fatalities related to drivers using alcohol is essential.

EN:

Road traffic injuries claim more than 1.35 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 5 and 29 years. Nearly 3,700 people die on the world's roads every day.

The adoption of policy and legislation on risk factors associated to traffic crashes—such as speeding, drink-driving, distracted driving, the use of helmets, seatbelts and child restraints, is essential to improve road safety.

At the same time, strengthening the individual and institutional capacities of law enforcement officers and relevant stakeholders to implement innovative interventions that reduce the number of road traffic injuries and fatalities related to drivers using alcohol is essential.

EVENT OBJECTIVES

By the end of the event, participants will understand the importance of road traffic injury prevention and the role of policy and legislation in improving road safety. Participants will also understand the importance of strengthening the individual and institutional capacities of law enforcement officers and relevant stakeholders to implement innovative interventions that reduce the number of road traffic injuries and fatalities related to drivers using alcohol.

EN:

The e-Learning course “High Visibility Enforcement Interventions: Law Enforcement to reduce road traffic crashes related to drivers using alcohol” aims to serve as a tool for government officials to help them design programmes and interventions that contribute to achieve Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol.

The e-Learning course aims at raising awareness, creating knowledge and improving performance on. the following areas:

- The UN Decade of Action for Road Safety- Pillar 4 Safer Road Users

- The Global Road Safety Performance Targets and Sustainable Development Goals (SDGs) related to road safety
- The use of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol

LEARNING OBJECTIVES

By the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4 - High Visibility Enforcement (HVE) and its impact on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol
- Describe the impact of the High Visibility Enforcement (HVE) on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the High Visibility Enforcement (HVE) in the context of the Sustainable Development Goals (SDGs) and the UN Decade of Action for Road Safety
- Describe the impact of the High Visibility Enforcement (HVE) on road traffic injuries and fatalities related to drivers using alcohol
- Explain the role of the High Visibility Enforcement (HVE) in the context of the Sustainable Development Goals (SDGs) and the UN Decade of Action for Road Safety

EN:

At the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4

- Recognize the 12 Global Road Safety Performance Targets and SDGs related to road safety
- Adapt and apply the HVE approach with extensive communication, education, and outreach to their respective contexts
- Identify and integrate key stakeholders to address road safety
- Develop minimum indicators to monitor progress towards the achievement of the Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol

CONTENT AND STRUCTURE

El curso está dividido en 5 módulos que se detallan a continuación:

- Módulo 1: Road Safety as a Sustainable Development Priority
- Módulo 2: What is a High Visibility Enforcement Intervention?
- Módulo 3: Case Study: Mexico "Conduce sin Alcohol" programme
- Módulo 4: Case Study: Dominican Republic "Tomatelo en Serio" programme
- Módulo 5: COVID-19: Good practices and precautions when using Breathalyzers
